Frameworks: React Native, React.js, Node.js, Express.js, Flask, FastAPI, Django
Databases: PostgreSQL (Supabase), MongoDB, MySQL
Tools: Git, Postman, VS Code, Antigravity, N8N, Emergent
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems
Soft Skills: Teamwork & Collaboration, Communication, Problem-Solving

EXPERIENCE

Advanced Software Engineering & Development Intern — MPOne Online Skilling Initiative *Jun – Jul 2026*

- Completed an intensive, live-batch training program in advanced software engineering and development under a government-backed skilling initiative, building hands-on proficiency in industry-standard development workflows.

PROJECTS

CyberShield AI | FastAPI, MongoDB, Machine Learning | GitHub

- Engineered a real-time fraud detection system by training ML models on multiple engineered features, boosting detection accuracy across transaction patterns.
- Designed and deployed REST APIs to power live prediction, alerting, and monitoring, and to surface basic model explainability for end users.

Agentic AI PDF Chatbot & Search Agent | LangGraph, LangChain, Next.js, Supabase (pgvector) | GitHub

- Architected a full-stack agentic RAG application for uploading, indexing, and conversing with PDF documents, orchestrating ingestion and retrieval workflows end-to-end with LangGraph and LangChain.
- Implemented semantic vector search with Supabase pgvector and delivered real-time streamed answers with source citations via Server-Sent Events, within a Turborepo-managed monorepo.

CERTIFICATIONS

- AWS Certified Cloud Practitioner – Practice Question Set (CLF-C02), AWS Training & Certification — Sep 2025
- AWS Technical Essentials, AWS Training & Certification — Sep 2025
- ServiceNow Virtual Internship – Agentic AI & CSA Fundamentals, AICTE–SmartBridge — May 2026
- Postman API Fundamentals (Student Expert) & MERN Full Stack Certification Training, Six Phrase
- NPTEL Certifications – Marketing Analytics (92%, Elite + Gold) and Introduction to Machine Learning, IIT Madras

ACHIEVEMENTS & ACTIVITIES

- Achieved Level 3 Conqueror in Ninja Slayground 2.0, a 21-day competitive coding challenge by Coding Ninjas.
- Contributed to open-source projects through GSSoC Estd 2024 and merged 4 pull requests during Hacktoberfest 2024.
- Sustained a 60+ day coding streak on LeetCode and a 340+ day Japanese-language learning streak on Duolingo.
- Gained exposure to startup incubation, R&D, and telecom infrastructure through visits to T-Hub, T-Works, BSNL, and CDAC.
- Completed a Networks Workshop conducted by Cisco, Pune.
